SUBJECT : Most Cost Effective Range of Student/Conferee
Utilization, [REDACTED]

25X1A

1. In response to a verbal request from your staff, an examination of the costs involved in accommodating students at [REDACTED] was undertaken recently with the goal of determining the most cost effective number of students or conferees who could be accommodated.

2. All things considered, it has been determined that 75 students is the optimum number [REDACTED], and 74 for [REDACTED] considering present manpower resources. Although facilities for more students and conferees are available, sustained higher numbers would require an increase in support personnel, mess attendants, maids, etc. at both locations.
